### SKILLS

#### Design

I design UI/UX with Figma. I love designing interfaces, improving the work until it reaches perfection. I usually design Softwares, Apps, Websites and Logos.

#### Motion Graphics

I've got some skills in animation, I can work with After Effects or Rive.

#### HTML / CSS / Python

I am fluent in HTML and CSS, I can do websites but not webapps (*I am not comfortable with SQL and Javascript*). I also have a good knowledge of Python.

#### Unity 3D & Blender 3D

I know how to use the game development software Unity 3d and i have a good experience of 3D modelling, shading and rendering with the Blender 3D software.

#### Teamwork

I have experience in teamwork after 2 years working along with the AxownOS team.
